# Vortek Solutions

A **NORTHROP GRUMMAN** Team

Prototype 2 Meeting Agenda

Wednesday, April 19, 2017; 3 – 4 p.m.

Members:

Justin Goulet, Chris Larsen, Mikal Callahan, Brock Corbett

Prototype 1 Meeting Agenda

Roll Call

Member Name	Is Present
Justin Goulet	
Christopher Larsen	
Mikal Callahan	
Brock Corbett	
Dr. Shauninn-Wu	
Thomas (Ty) Usrey	

Meeting Start	Meeting Adjournment
XX:XX XM	XX:XX XM

Topics of Discussion:

Outstanding Issues:
JSON object update
Wireframe Design approval
Overview of project team's progress

New Agenda Items

Justin Goulet

Project Deliverables:
How will this project be delivered to Ty? Flash Drive? GitHub Access? Email?

Project Readme:
One long document for each, or documents that link together?
- MS Word can link to different document
- HTML pages can be limited on what is shown to user at a time
- Currently have 2 HTML Readme's (on Github)

GitHub Pages Update:
All live code is now viewable on our GitHub Pages site. This site, while does not show the code, shows a representation of our progress.

Chris Larsen

View Updates: Initial node view now shows grid with workflow metadata.
- Added button to display workflow metadata (id, owner, status…)
- State data is held in each node.
- Comments/questions/concerns?

Mikal Callahan

Design Schema:
The widget more closely resembles the wireframes
Are there any last minute design specs to be added?
In the event that we do switch frameworks, theming will have to start over from scratch

Brock Corbett

Alternative Framework: Would there be a conflict of transitioning to a different framework?
